

Personal data

Last name	Boekholt
Name	Eildert-Jan
Title	Ing (Engineer)
Date of Birth	April 1971, Oosterhout, Netherlands
Address	Kortelandseweg 20, 2631NE Nootdorp
Nationality	Dutch
Family	Married, 3 kids (11, 13 and 15 years)
Gender	Male

Most important skills

- Extensive knowledge of ICT and Electrical Engineering, Telecom and Telematics
- Director / Senior Manager
- Program/portfolio Management
- Project Management
- Operations Management
- People Management - Coaching
- Supplier management
- Customer management (pre-sales / after-sales)
- Interim Management / re-organisation and re-structuring / outsourcing
- Strong detail knowledge of many area's (among others IT, Networks, Legal, Purchasing, Finance, HRM, Customer Operations/support, Process management)

Added value

- Aimed at result, pragmatic, WIN-WIN
- In a changing organisation (re-structuring, expanding) capable to obtain the right result
- Social interaction with others, cooperative teamwork
- Strong analytic power, therefor capable of defining issues in concrete problems, and formulate practicable solutions and implement those.
- By using integrity, trust and communication skills capable to motivate people with different nationalities, background and skills.
- Professional, discrete and independent self driving resource
- Able to gain successes with personal strength and action
- Helicopter view with the power to discuss the details
- Development of Strategic plan and translation into a Tactical and Operational plan.

Management Development

- May 2003 till end of employment part of the high potentials Telfort.
- April 1995 till end of employment part of the talent development program of KPN Telecom, inclusive last year member of top 100 managers KPN.

Motivation / Ambition

- For me the three most important motivators are; 1. To work with people or create a team of people that have fun in their work 2. Environment in which I can extend my skills and knowledge and 3. (Internal/External) Customer contact. This next to the standard motivators of an appealing working space and financial compensation.
- My ambition is to stay in the area of Telecommunications / ICT. My preference goes to a role as project / programme director to manage strategic projects within the company or being part of the company management team with the responsibility for the technical development and/or operations division of the company

Career

VodafoneZiggo

Ziggo

UPC

Sept 2014 – present
(self employed 2PI)

Program Manager/Director Mobile

Started as Program Manager for Handset Financing (AFM regulation) within UPC. In December 2014 UPC requested to take over responsibility for all Mobile projects within UPC. After merge with Ziggo in March 2015, Ziggo requested to take over responsibility of all Mobile projects within new Ziggo. In October 2016 before merge with Vodafone was a fact requested to set up a plan for migrating Ziggo customers to Vodafone. Plan has been agreed and implementation has started as of 1/1/2017.

Intercity Zakelijk

Jan. 2013 – Sept 2014

Group Systems Director

Responsible for all technical aspects of Intercity (Networks, IT, Technical Product Management, Testing) on Group Level (UK - 14 persons and NL – 7 persons). I report to the owner of Intercity (UK). Within both countries I have restructured two departments; Operations and Development. Key tasks: operational excellence, coaching, management, implementing new services and products for Business Customers, business planning. This role was a Senior management role with quite a lot content related tasks due to a flat organisation.

Sept. 2012 – Jan. 2013

Wholesale en Network Director

Responsible for the Dutch Telecom Network (Mobile and Fixed). This network was implemented as turn key project by Nokia Siemens but Intercity needed someone to fix all the problems with all parties to get it properly working. I have implemented several technical changes and an operational procedure and after one year we had a better mobile network than KPN (according to KPN and 3rd party measurements). My second responsibility was as wholesale director responsible for acquisition of large business resellers (like Van der Valk)

6GMOBILE

April 2007 – July 2012
(2007 as self employed)

Director Development & Operations (CTO/COO/CIO)

End responsible for day to day management of the mobile operator (MVNE) 6GMOBILE not including the fields of Sales, Finance en Legal. 6GMOBILE has amongst others the following labels: Kruidvat Mobiel, Ajax Mobiel and as MVNO customer amongst others SMS City and Mobilized. My team consist of Product Managers, Project Managers, IT Architects/engineers, Network Architects/Engineers, Test Manager, Operations (Delivery, Support) and First Line Contact Center. Our strongest USP is that we can deliver within 4 till 12 weeks a new mobile brand depending on what the customer wants. From Service Provider, to Enhanced Service provider to full MVNO and special innovations which are not easily possible at an incumbent MNO.

2PI

Jan. 2007 – March 2007

Started own company 2PI (2PI = PPI = Project, Program & Interim Management)

Started at 6GMOBILE (as consultant), at that time under the name of Unify – Infonet Mobile.

Telfort

Oct. 2005-Dec. 2006

Director / Sr. Manager Programmes and Projects

End responsible for all programmes and projects within Telfort (budget, planning, resources and quality). Also responsible for all processes within Telfort (maintain and develop) & Quality (ISO 9000). Managing 4 managers who are managing around 30 team members. Reporting to the CFO.

Aug. 2004-Sept. 2005

Manager Program Management

End responsible for managing three programmes (all projects within the departments Wholesale, Networks and IT). People management of 7 (sr) project managers. Reporting to Director ICT.

March 2003-July 2004

Program Manager

Responsible for managing the program Wholesale and the program Prepay. Mainly managing (supplier) project managers for implementing projects within a program. Also managing the strategic Postbank deal (sales and delivery of 250.000 mobile subscriptions and handsets within 3 months).

Sept. 2001- Feb. 2003

Sr. Project Manager

End responsible for implementing different strategic projects like MVNO Debitel, MVNO Versatel and MVNO AH.

Australia

Jan. 2001-July 2001

Program Manager by Telecom New Zealand Australia.

End responsible for all projects and programmes (Telecom and ICT) towards one of the four banks of Australia (Common Wealth Bank). Main task: acquisition of new projects, writing project plans, writing and negotiation of contracts with suppliers and customers, managing the projects, the project managers and many different suppliers. Profit and lost responsible. Reporting to the manager New Business of Telecom New Zealand Australia. Due to the fact that my wife got pregnant we turned back earlier to Holland

KPN

Jan. 1999-Dec 2000

Project director / Sr. Project manager

Responsible for opening the access network (local loop) of KPN (>8 million connections) for all Dutch Service Providers and Network Operators (OPTA Regulator rule). Project team +/- 100 resources, budget fl. 600M. Reporting to the board of directors KPN fixed and the board of directors KPN Wholesale.

Aug. 1997-Dec.1998

Project manager

End responsible for the replacement of a decentralised ICT system (4TEL) by a central system. Number of end users: 2000 support employees, budget fl. 16M. Reporting to director KPN fixed - access network. Awarded with 'Best project October 1998'.

July 1995-July 1997

Project leader

Responsible for implementing different projects like ISDN.

Jan.1995-June 1995

System engineer (partly hired via Sema Group)

Responsible for implementing my graduation project
